Notice and Takedown Procedures.

The Site implements the following notice and takedown procedure upon receipt of any notification of claimed copyright infringement. The Site reserves the right at any time to disable access to, or remove any material or activity accessible on, or from, any Site or any Materials claimed to be infringing or based on facts or circumstances from which infringing activity is apparent. It is the firm policy of the Site to terminate the account of repeat copyright infringers, when appropriate, and the Site will act expeditiously

to remove access to all material that infringes on another's copyright, according to the procedure set forth in 17 U.S.C. §512 of the Digital Millennium Copyright Act ('DMCA'). The Site's DMCA Notice Procedures are set forth in the preceding paragraph. If the notice does not comply with Paragraph 19 and §512 of the DMCA, but does comply with three requirements for identifying sites that are infringing according to §512 of the DMCA, the Site shall attempt to contact or take other reasonable steps to contact the complaining party to help that party comply with the notice requirements. When the Designated Agent receives a valid notice, the Site will expeditiously remove and/or disable access to the infringing material and shall notify the affected user. Then, the affected user may submit a counter-notification to the Designated Agent containing a statement made under penalty of perjury that the user has a good faith belief that the material was removed because of misidentification of the material. After the Designated Agent receives the counter-notification, it will replace the material at issue within 10-14 days after receipt of the counter-notification unless the Designated Agent receives notice that a court action has been filed by the complaining party seeking an injunction against the infringing activity. The Site reserves the right to modify, alter or add to this policy, and all users should regularly check back to these Terms and Conditions to stay current on any such changes.

Note: this notice does not constitute any admission that U.S. law is applicable to specific allegations of copyright infringement or any attornment to the laws or jurisdiction of the U.S. However, as a matter of policy, we believe the DMCA provides a useful framework for resolving copyright issues, and therefore advise that upon receipt of a properly filed complaint satisfying the requirements of the DMCA, we will remove or block access to the allegedly infringing material. If a customer or user believes in good faith that a notice of copyright infringement has been wrongly filed, such person may submit a counter notice to us. We will not be a party to disputes over alleged copyright infringement.
